OBJECTIVE

Aspiring software developer seeking a challenging role in a reputable organization where I can leverage my logical thinking, strong foundation in Java, working knowledge of data structures and algorithms, and basic proficiency in Python to contribute to organizational success while continually enhancing my skills and expertise.

EDUCATION

Kalasalingam Academy of Research and Education, Tamil Nadu	2022 - Present
Pursuing 7th semester of B.Tech in the specialization in Computer Science & Engineering	CGPA : 8.54
Oxford Junior College	2020 - 2022
Intermediate in MPC stream	84%
Nivedita EM High School	2019 - 2020
Secondary School Education	93.83%

TECHNICAL SKILLS

- Programming Languages : Java, Python
- Web Languages : HTML5, CSS3
- Databases : MySQL

EXPERIENCE

Freelance Web Developer - Kalasalingam University	Mar 2024 – Apr 2024
Developed and deployed a Java + React + MySQL e-commerce web app for the Food Technology Department to sell Choco Spread, featuring product catalog, cart, payments, and responsive UI.	

PROJECTS

- **EDUCA - Inclusive Platform for Learning and Mental Well-being**
 - Technologies Used : React, Java, MySQL
 - An inclusive e-learning platform designed for individuals with mental health challenges, offering video, audio, and image-based learning modules along with interactive features like an MCQ generator and stress relief tools. The system fosters engagement through simplified animated explanations, guided meditation, and more.
- **Face Recognition Based Attendance System**
 - Technologies Used : Python, OpenCV, Tkinter, SQL.
 - Developed an Automated Attendance System featuring real-time face detection, secure login, and attendance tracking. The system automatically captures and recognizes faces to mark attendance, eliminating manual entry and improving accuracy. Integrated with an SQL database for efficient storage and management of records.

CERTIFICATIONS & ACHIEVEMENTS

- **HackerRank - Java Programming(Basic)**
- **Code Chef - DBMS**
- **Code Chef - DAA**
- **Winner – National Level Hackathon, Hyderabad (1st place).**
- **Runner Up - Idea Spark Hackathon**
- **Publications – Face recognition-based Attendance system – ICCRTEE organized by IEEE**

ADDITIONAL INFORMATION

- **Languages:** English, Telugu
- **Interpersonal Skills** - Managing time, multitasking, being positive, thinking logically, and communicating effectively.
